Black Hut

Having passed **Mountain Box** and the 29th Mile Marker on the right, you soon arrive at **George's Folly** also sometimes referred to as **Rice's Corner**. On the left at this point is **Mike Casey Shelter**. Shortly after, on the right side is **Black Hut** or **Stonebreaker's Hut** seen here in the photograph. Like many of the points on the Mountain section of the course, this is only accessible by vehicle when the road is open, Marshals and Medics can get here after the road has closed in the convoy that leaves Ramsey, usually about 15 minutes after the mountain section of the course closes. Limited parking and no public parking.

Verandah and Graham Memorial

Shortly after **Black Hut** comes **Verandah**. It is described as four right hand corners, but is ridden as a single long right hand bend. At the end of it, at **Bungalow Bridge** is **Les Graham Memorial**. Les Graham died at Bray Hill in the Senior TT in 1953. The stone shelter was built in his memory in 1955 in the form of an alpine lodge. It is inaccessible once the roads have closed and there is no parking (a few bikes can park on the grass). Like all of this section of the Mountain it can get very cold so be sure to take warm clothes!

Bungalow

This picture is taken from **Bungalow** looking back towards **Bungalow Bridge** and **Verandah**. The building in the picture is the old Motorcycle Museum. It was originally built as a Cold War Air Defence radar station.
