

## Mountain Course Mile Marker 33 to Mile Marker 34

Image © Jon Wornham 2015 [www.island-images.uk](http://www.island-images.uk)

### Keppel Gate

After passing the 33<sup>rd</sup> Mile Marker, the next corner is at **Keppel Gate**. There is a right hander on the entry followed by a left. The stone hut on the right of the course in the picture is the Marshals' shelter. There is good parking in the area leading towards the sheep pens seen at the bottom right in the picture. No food available although the Marshals look after medical staff very well! One of the two Medical Helicopters is located here. Not accessible once the road closes (except by air!). Portaloo behind the hut for Marshals/Medics

### Kate's Cottage

On the right after **Keppel Gate** is **Kate's Cottage**. It is a left hand corner. Originally Tate's Cottage after the family that lived there, it became known as Kate's Cottage after a slip of the tongue during a pre-war BBC commentary. Limited parking for Marshals and Medics only, and not accessible once the road is closed, although spectators can park at the **Creg-ny-Baa** and walk up the outside of the course to spectate at **Kate's**. The middle picture is taken from **Keppel Gate**, looking down towards **Kate's** with the **Creg-ny-Baa** in the distance. The bottom picture is taken from the other side looking back up the course. No food is available at **Kate's** so take your own. The 34<sup>th</sup> Mile Marker is just beyond Kate's on the right (course direction).
