Greeba Castle

Greeba Castle is a right hand corner just before the 6th Mile Marker. It is also known as **Hall Caine's Corner**, named after the Edwardian author who lived in the mock castle. Greeba Castle can only be accessed via open roads. Parking is usually available for the Marshals and Medical staff in the driveway of the castle. Check with the Marshals on site.

Appledene

Just beyond the 6th Mile Marker there is a series of left and right hand curves called **Appledene**. Beyond Appledene, on the right hand side is **Cronk Dhoo Farm**. This is a campsite. Like Greeba Castle, this section of the course is only accessible on open roads.

Greeba Bridge

After passing Cronk Dhoo Farm, at around 6.7 miles, is **Greeba Bridge**. It is a left hand corner. Just after it on the left is a church, built in 1881 named **The Old Chapel**. Like Greeba Castle, it is only accessible on open roads. There is parking and refreshments available at **The Hawthorn** pub on the left as you leave Greeba. Warning, the midges can be bad all around this part of the course so you are advised to take insect repellent with you!
